

Tucson Derby Brats Basic Skills Assessment Ver. 2 2014

The purpose of this skill assessment is to ensure that all skaters, at the team level, in the Tucson Derby Brats have the skill mastery needed to enjoy and participate in bouts and team practices without being a safety risk to themselves or others. New skaters will need to participate in at least 1 month of practice, a minimum of 6 practices, before they can be tested for placement on a team.

There are 4 principal areas that this assessment will cover:

1. Basic Skills
2. Falls
3. Advanced Skills
4. Pack Skating/Awareness

Each skill will be assessed as follows:

0. Needs significant work
1. Has the concept, needs practice
2. Passes skill
3. Excels at skill

To pass a principal area, the skater must not have any 0's and must average a 2 over all skills in that area.

Passing all 4 principal areas makes a skater eligible to join a team and participate in bouts if all other administrative criteria are met.
